Andreani Logistics Group responds to rapid growth with Red Hat cloud solution

Andreani group

Logistics

Software and services
Microsoft Azure
Red Hat® OpenShift®

Andreani Logistics Group operates in both Argentina and Brazil, developing logistics and e-commerce solutions for the pharmaceutical, cosmetic, technology, and telecommunications industries, and more.

Challenge

- Acquire scalable infrastructure resources as well as related technical knowledge
- Accommodate growing demand for shipped goods resulting from the COVID-19 pandemic
- Accelerate planned transition to cloud computing and infrastructure

Solution

After completing a proof of concept on cargo operations, Andreani deployed a container-based environment built with Azure Red Hat OpenShift Platform, a managed cloud solution jointly delivered and supported by Red Hat and Microsoft.

Benefits

- Achieved scalability to meet 45% surge in customer shipping demand
- Reduced IT management effort with automated monitoring and patching
- Simplified deployment process

"*The biggest benefits of Azure Red Hat OpenShift are the speed of implementation, improved flexibility and scalability, and the solution's simplicity.*"

Sebastián Sarasate
Infrastructure Manager, Andreani Logistics Group
